Washington, DC 20554

Dear The Federal Communications Commission,

Dear FCC Member, As a teacher, I've always tried to lead by example in a time when good role models are getting scarcer. With water and electric usage, you use more, you pay more.

How can you justify a flat tax where the big corporate users will pay the same as small users with few phone calls such as homeowners and schools? Where's the fairness? It seems to show that if you have more you can get more breaks.

I do not think that I should have to pay more. I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

I use my wireless phone for safety, in an emergency, and for security. I don't call that often so the 40 min. card lasts me 2 1/2-3 months. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Yours truly, Mrs. Gloria Jacobs 11428
Symphony Woods Ln Silver Spring, MD 20901

Keep the USF Fair!

Sincerely,

Gloria A. Jacobs
